

NATIONAL LIBRARIAN'S DAY CAMPAIGN - 2026

Key Message

Prof. Mani Kant Paswan

Dear Prof. Madalli,

We have paid a meaningful tribute to Prof. S. R. Ranganathan, the father of library science in India, by naming our library the "Prof. S. R. Ranganathan Learning Hub." His ideas transformed libraries into learner-centered spaces, and this name reflects our respect for his vision.

Prof. Ranganathan introduced the Five Laws of Library Science, which remain the foundation of modern library services: books are for use, every reader has his or her book, every book has its reader, save the time of the reader, and the library is a growing organism. These principles continue to guide how libraries serve knowledge seekers.

He also developed the Colon Classification system, a major contribution to organizing knowledge in a flexible and scientific manner.

#LoveLibraries • #EmbraceKnowledge

Best,

Prof. Mani Kant Paswan

Professor, NIT Jamshedpur
